FIBRE OPTIC CABLES INTERNAL / EXTERNAL LOOSE TUBE OM1

The Optix multi-purpose uni-loose tube distribution cable provides a highly cost effective solution to all internal or external datacomms cabling requirements, particularly where on site fusion splicing of pigtails is the preferred termination technique.

The cable consists of a single central uni-tube containing individually colour coded 250µm buffered fibres. This tube is embedded in an Aramid yarn strength member, and over sheathed with a single Low Smoke Zero Halogen (LSZH) outer jacket. The outer jacket is flame retardant, UV stabilised and extremely resistant to the ingress of moisture. A choice of multimode and singlemode fibre types and specifications are offered (see fibre specification sheet) with fibre counts from four to twenty-four in the standard range.

Their very small diameter, lightweight and excellent environmental performance makes these cables ideal for installation in a broad range of network applications including LAN backbones, networks with mixed indoor and outdoor cabling, outdoor in flooded ducts and any premises distribution system.

Cable Description	Product Code
4 core, 62.5/125, Loose Tube, 250um, Universal, LSZH	U-DH-04-G62
8 core, 62.5/125, Loose Tube, 250um, Universal, LSZH	U-DH-08-G62
12 core, 62.5/125, Loose Tube, 250um, Universal, LSZH	U-DH-12-G62
16 core, 62.5/125, Loose Tube, 250um, Universal, LSZH	U-DH-16-G62
24 core, 62.5/125, Loose Tube, 250um, Universal, LSZH	U-DH-24-G62
